

# EDUCATIONAL PROGRAM

Following the highest educational standards in accordance with the latest breakthroughs in arts, science and technology but more specifically in the science of education, **IDEA** has updated its institutional approaches to comply with current learning trends and meet the demands of a global citizenship that now seeks inclusion, authenticity and enforces the important basic competencies:

**BEING – KNOWING – COEXISTING.**

# VISION

**IDEA** , as a bilingual school that thrives on diversity and multiculturalism, accompanies students in their educational, holistic, humanistic and constructive processes, focusing on their integrative development, helping them acquire new life skills, while stimulating critical thinking, respecting plurality, valuing affective and effective communication as well as decision making, helping our students act responsibly in their personal, educational, professional and social lives.

**IDEA**  
**THINKS BIG!**

# MISSION

**IDEA** 's mission is to embody an innovative and educational institution focused on the inclusive development of the "21st-century-citizen" through multiple pedagogical and academic approaches: The mastery of English, the development of critical thinking skills along with creative leadership, always emphasizing the importance of intrapersonal and interpersonal relationships, and seeing all of the above as necessary resources for a successful future.

**IDEA**  
**THINKS BIG!**

# VALUES

Preparing critical and knowledgeable global citizens, up-to-date in science and technology, well-versed in emotional intelligence and social skills.

Supporting values to generate an identity centered on multiculturalism, reinforcing admiration and respect for cultural diversity in different environments.

Promoting ethics, honoring hard work, supporting equity, equality, diversity & justice: Elements of global citizenship that help take a critical position for societal change.

→ **Our values help us COEXIST** ←
